

ABOUT US

Jamaica Foodstuff Trading Co. LLC (JFTC), established in 2013 in Dubai, is a trusted FMCG distribution house serving markets across Africa and Asia. We specialize in sourcing, marketing, and distributing leading international brands, with a strong foundation in confectionery.

We are the official distributors of Tirma and Langnese, and we deal in a wide range of other leading confectionery brands. Our range covers food and non-food categories, serving retail and wholesale channels. Building on our strong network, we are now expanding into the pet food segment.

BRANDS

PET FOOD CATEGORY

Jamaica Foodstuff Trading is proud to bring INABA and Churu to our portfolio as an official distributor. Founded in 1805 in Japan, INABA is built on generations of seafood expertise and a deep commitment to quality.

From premium meals to the much loved Churu treats, their products are made with real chicken and wild caught tuna, low in calories, high in moisture, and always free from grains, preservatives, and artificial colors. Today, INABA is Japan's leading pet food brand, trusted by pet parents worldwide.

CAT PORTFOLIO

Designed for hand feeding to increase bonding with your pets.

Churu®

CHURU, OUR HERO RANGE IS LOVED BY MILLIONS OF CATS WORLDWIDE!

Make your cat's day with Churu® purées:

Creamy, delicious, low calorie treat.

Churu make snack time fun for cats. These tasty, healthy and fun treats come in easy to open packaging that your cat will simply love to lick! Designed for feeding by hand.

The Secret to Good Health & Good Taste

If you are looking to add new flavors to your cat's meal, you may want to consider incorporating dashi into their diet. Dashi is a traditional Japanese fish-based broth made from bonito flakes, known for its rich, savory flavor. Incorporating dashi into your cat's diet can add depth and complexity to their meals, making them more enjoyable.

The Making of Dashi Broth

1

THE TUNA HARVEST

Skipjack tuna is caught from the deep sea.

2

DRYING PROCESS

The tuna is transformed into a protein and mineral-rich dried bonito.

3

FLAKING PROCESS

The dried bonito is delicately shaved into bonito flakes.

4

BREWING PROCESS

The bonito flakes are carefully brewed for several hours.

5

The Birth of the Golden Delicacy

It's not just about the taste - dashi can also provide important nutrients, including vitamins and minerals. Dashi, is low in calories and fat, making it a healthy addition to your cat's diet. It is also a broth-based ingredient, which means it contains a significant amount of moisture. Overall, dashi can be a tasty and nutritious addition to your cat's meals, adding a burst of flavor that they're sure to love.

Churu[®] Meal Topper

Cat's Mealtime is Extra tasty and Extra healthy with CIAO Churu's Meal Topper

COMPLETE & BALANCED
for Adult Cats

The main advantages of liquid meal option is that it is easier to digest than dry kibble. This is especially important for cats with sensitive stomachs or those who have trouble chewing due to dental issues. The creamy texture of our purée also makes it more appealing to picky eaters, who may be more inclined to try new flavours and textures.

Churu[®] Meal Topper

Dog's Mealtime is Extra tasty and Extra healthy
with INABA Churu's Meal Topper

COMPLETE & BALANCED

for Adult Dogs

The main advantages of liquid meal option is that it is easier to digest than dry kibble. This is especially important for dogs with sensitive stomachs or those who have trouble chewing due to dental issues. The creamy texture of our purée also makes it more appealing to picky eaters, who may be more inclined to try new flavours and textures.

Low in calories

Made with real deep sea tuna or farm raised chicken

No grains, preservatives or artificial colours

High Moisture

Creamy texture

Dry Snack
1-2 pcs

80 kcal **12%** Moisture
